

## C. C. DRIVE IS SUCCESS: 354 MEMBERS NOW

**NOW COMES THE TEST**  
The DIXON Chamber of Commerce's drive for 350 members, for which two teams of willing and unselfish business and professional men have been working this week, was ended this noon and it was a success.

The DIXON Chamber of Commerce now has 350 active members—thus insuring President Ray S. Kline and his directors the necessary finances to carry on for DIXON. The success of the drive shows Mr. Kline that the business interests of DIXON have confidence in him and his board—and at the same time the success of the drive adds to the responsibilities of those gentlemen—for the financial support given them is a challenge to them to make good.

And now comes the test, not so much for the officers and directors, as for the members. The dollars these members will put into the treasury are needed—but that is not all.

The same staunch, unselfish, determined co-operation that has marked the work this week must be continued. Let there be no let-up. If the Chamber wants help let's all take off our coats and give it. Mainly and enhance the spirit of unselfish, friendly co-operation and make 1928 the greatest year old DIXON has ever known.

The hammer is buried—let's all forget where—and everybody get a horn and BLOW IT until it hurts. Then Watch DIXON DIG OUT.

**ETERNAL VIGILANCE**  
The competition between communities is keen. Every progressive city is doing its utmost to expand. The best the city has must be brought into play. DIXON's interests must be concentrated for the good of all in our city.

The Chamber of Commerce is the concentration point of these interests. The Officers and Secretary must be constantly alert and on the job to opportunities which may arise. We must be a step ahead of other places or they will get what we should have. The secretary is constantly at work for those things which will mean the development and advancement of our community.

A factory may be influenced by the activity of a live aggressive Chamber and may be lost to DIXON through the lack of one in locating in DIXON; a few cents in a railroad rate; a slight difference in service—the advantage of one community over another—may determine the greater prosperity of everyone in DIXON or may lose for us the benefits we may rightly have account of our location etc.

Watchfulness for the welfare of everyone in the community is the job of the Chamber of Commerce. You owe it to yourself to be protected.

The Chamber of Commerce is your civic insurance.

Make it stronger.  
Become a member now.  
Do it for a GREATER DIXON.

**WHO ARE LEADING CITIZENS?**  
In every city, large or small, people are proud to point out the leading citizens. They are the people we are glad to claim as our friends. They are outstanding in their leadership in all civic movements. They have become leaders because they are a success in their business; because they stand for something in their church, lodge, club and every organization for the community's best interest.

Leading citizens may or may not have a lot of money. They may or may not have an ancestry reaching back to the Mayflower. They may or may not hold public office. These things do not make them leading citizens. They are leading citizens because of their leadership, because they are out in front in an effort to do something for their community.

Leading citizens are progressive. They lead. They are not content to sit still. They are not satisfied with what they had a year ago. They want a bigger, better town. They want finer improvements, they want greater community prosperity. They want more business for everybody. They are willing that other people in the community get their share of prosperity. They are leaders because they do lead the way to better things for everybody.

Leading citizens belong to the Chamber of Commerce because this is the adopted method for leading citizens to lead the way to a more prosperous community. Our leading citizens are renewing their membership in the Chamber of Commerce.

Are you a leading citizen of this community?

Elginites Ask Vote  
on Daylight Saving

Elgin, Ill., March 29—(AP)—Interest in the proposed referendum on daylight savings in Elgin today was rivalled only by that in the outcome of the statewide primary. Some 300 petitioners have asked that a special election be held to determine for the next several years whether the city will adopt daylight saving or not. The petitioners have offered to stand the expenses of the election, provided the city council will sanction it and assure the legality and correctness of the tabulation of results. Indications were that the election will be held April 21.

## HAD BAD NIGHT

Northampton, Mass., March 29—(AP)—Mrs. Lemira Goodhue, mother of Mrs. Calvin Goodhue, spent an uncomfortable night and her daughter deferred today's visit until this afternoon. Dr. J. E. Hayes, Mrs. Goodhue's personal physician said in his 11 o'clock bulletin.

OIL SCANDAL  
BEGAN DURING  
WILSON REGIME

—SENATOR ROBINSON

Indiana Senator in a  
Sensational Talk in  
Senate Today

Washington, March 29—(AP)—

Again bringing the oil scandals to the Senate floor today, Senator Robinson, republican, Indiana, declared that the "conspiracy" to get control of the naval oil reserves was not formed in Chicago during the Republican convention of 1920 "but in the city of Washington during the Democratic administration of President Wilson."

"It was participated in," he said, by high officials of that administration and aided and abetted by still other Democrats of high standing.

The record shows that the wholesale influence of federal officials, including Cabinet officers and their important assistants by private oil interests was in full bloom under the Wilson administration and that the exhaustion of the nation's and the navy's supply of oil was already well under way due to Democratic acts of both legislation and administration.

**Attacked Daniels**  
Reviewing what he described as some of the salient facts regarding oil leases, Robinson first centered his attack on Joseph Daniels, Naval Secretary in the Wilson cabinet. He claimed it was known that "when the oil scandals first broke, Secretary Daniels, along with others of the former Wilson cabinet were running for cover and issuing futile denials of their complicity in leasing the oil reserves of the United States."

The Indianapolis said that no sooner had President Wilson approved the leasing act of February 25, 1920, than Daniels suggested to Congress that the law be amended "so as to give him absolute power, to be used in his discretion, over all the naval oil reserves existing then or which should be created later."

"No sooner was the amendment which he wrote, and which the democratic Senators in this body supported, operative, than he began to permit the navy's oil to be taken out of the reserves by private oil corporations."

**Lane Originator**  
"So far as the official record shows," Robinson continued, "Franklin K. Lane, Secretary of the Interior in the Democratic administration, was the originator of the proposal to lease naval reserve oil lands to private interests, to be exploited by them."

"The record shows that on August 1, 1917, Secretary Lane communicated with other members of the cabinet, namely, Secretary of the Navy Daniels, Secretary of War Baker, Secretary of Labor Wilson, Secretary of Commerce Redfield, and Secretary of Agriculture Houston, to the effect that naval reserve number 2 was located just outside its borders, and as an offset territory within the reserve ought to be leased at once to private corporations. This communication was in the form of a formal letter which exists in the files of all of these departments."

"The late Senator LaFollette made the charge that the leasing act, of which the Senator from Montana was the leading advocate, was a measure in the interest of the Standard Oil and other private oil corporations."

**LaFollette Fought**  
"It was in an attempted answer to this direct and serious charge of the late Senator LaFollette that the Senator from Montana, Walsh, divulged the fact, offered in defense of his attitude at that time, that the whole scheme of turning public oil lands over to private corporations was fathered by the leaders of the democratic party, with Secretary Lane as the head of the movement." Robinson said.

Turning his fire on John Barton Payne, who succeeded Lane as Interior Secretary, the Indianapolis declared that immediately after enactment of the Daniels leasing act, Payne began making leases to private corporations to drill oil wells on public lands just outside the naval oil reserve.

While Payne was in the cabinet for less than a year, Robinson said he had granted 150 leases to private oil interests on lands immediately adjacent to Teapot Dome, embracing an area 5,000 acres greater than the Wyoming reserve itself.

Ambulance Stolen  
While Driver Ate

Milwaukee, Wis., March 29—(AP)—

A Milwaukee county ambulance was stolen last night.

The machine was being brought by George Schoen from Freeport, Ill., where it was manufactured. Schoen stopped to eat at a roadside tavern a few miles south of the city.

He came out to find the gleaming white machine gone.

Several hours later it was found deserted in West Allis, a suburb.

OVER 600 FARMERS WILL BE  
GUESTS OF AMBOY BUSINESS  
MEN AT BANQUET THIS EVE

(Telegraph Special Service.)

Amboy, Ill., March 29.—Over 600 farmers of Lee county will be guests of the business interests of Amboy at a great banquet to be served at the Amboy township high school this evening, and it is expected the affair will be one of the greatest get-together affairs in the history of Lee county.

Over 1200 invitations were sent out by the Amboy people and over half the invitations were accepted—as a

result of which Amboy will this evening witness the biggest affair of its kind ever staged here. The business men of the city will serve as waiters at the banquet and a fine menu has been prepared.

After the banquet a program will be given, the feature which will be an address by Editor Glover of Ford's Dairyman, and during the evening the Amboy Milk Products Co. will give away two pure-bred heifers—one a Guernsey and the other a Holstein.

GIVES GOVERNOR  
CREDIT FOR AID  
IN T. B. TESTINGCo. Veterinarian Tells  
of Increased Award  
for Reactors

County Veterinarian H. C. Barth

of Amboy was in Dixon this morning, having returned last evening from a business trip to Chicago. As the result of the visit in Chicago at which time the county veterinarian was in conference with members of the state Department of Agriculture, Dr. Barth this morning gave out an announcement that will be of considerable interest to cattle owners and dairy farmers throughout the county.

In the past the maximum allowed by the state department for appraisals did not exceed \$85 per head for a very active herd. The new ruling which was applied. The new ruling which was announced yesterday at the Chicago meeting, increases the appraisal value on cattle that have reacted to the tuberculin test to the actual value of the animal.

In commenting upon the new ruling County Veterinarian Barth gave a great deal of credit to Gov. Small personally for the recent action. He stated that the Governor had taken a very active interest in the cleaning up of herds in Illinois, he himself being a farmer and in close touch with the situation. The Governor has also done all in his power to hasten legislation which would expedite the driving of bovine tuberculosis from the state, and a few months ago when the federal appropriation for this work became exhausted, through Gov. Small's interest in the program, Illinois advanced the fund necessary to pay the losses until the new federal appropriation was made, and the state treasury reimbursed for the amount expended, Dr. Barth stated.

**Two Full Tickets  
in Hamilton Town**

There is not much excitement in regard to the Harmon township election as there is only one contest, that for commissioner of highways. Alf Clatworthy, the present commissioner, is opposed by Fred Schelp. The other candidates are so far unopposed.

Ellis Kugler is out for town clerk, Thomas J. Drew for assessor, William Krasov for school trustee and Frank Kugler and Elmer Hess for justices of the peace.

In Hamilton township there are two full tickets in the field and a warm fight is promised. Joe Bauer, who has been supervisor for the past 18 years, has refused to run and Howard Kelgwin and Roy Atherton are the candidates for that office.

Edward H. Shawger  
of Palmyra is Dead

Edward Hugh Shawger, residing in the George W. Smith farm on the Lincoln Highway west of Dixon on route 1, passed away this morning about 5 o'clock, death ending an illness of long duration. The deceased was born in Wyandot, May 27, 1876 and had been a resident of Palmyra township for more than five years.

Funeral services will be conducted Saturday morning at 9:30 at the Preston chapel, Rev. A. T. Stephenson, pastor of the First Methodist church officiating. The body will be taken overland to Wyandot for interment.

ASKED TO TAKE  
CHARGE OF POLLSWhile Threats of More  
Bombings are Made  
in Chicago War

Chicago, March 29—(AP)—The

United States government today was asked to guard Chicago polls April 10 when voters mark their answer to a turbulent, bomb-studded primary election campaign.

Palmer Anderson, U. S. Marshal, has forwarded to Washington a recommendation that he be authorized to use 500 deputy marshals in Chicago that day. The additional officers would have to be specially deputized, and Anderson asked that he be given that authority.

The bid for federal action was generally construed as a reply from the Senator Deneen faction of the republican party to the bombing of the Senator's home and that of Circuit Judge Swanson Monday night—outrages which they have blamed on followers of Mayor Thompson-Swanson's Attorney Crowe wing.

Mayor Thompson's comment on the report that federal officials had interested themselves in the election, brought this statement:

"Charles S. Deneen was State's Attorney and made himself Governor by indictment route. In my opinion the people understand his old tricks."

Senator Deneen was to reach Chicago today from Washington to take personal charge of the campaign. This far he has been inactive personally in the Chicago situation.

**Second Threat on Judge**  
Threat of a second attempt upon Judge Swanson's life was made by telephone to the Swanson home last night. A man's voice asked Mrs. Henry Klaas, Judge Swanson's daughter, where her father was speaking. When she replied that she did not know the voice said:

"This is the fellow who bombed your house two days ago. Tell the Judge that the next time we will do a better job."

Judge Swanson, who is the Deneen candidate for nomination as State's Attorney against the incumbent, Robert E. Crowe, said he was genuinely concerned over the threat, which he reported to Police Commissioner Hughes.

State Senator Herman Haensch, Deneen candidate for 46th ward committee, was another who was threatened. An anonymous letter said his home would be bombed and one of his children "got". Haensch announced last night that he has taken his three children from school and sent them out of the city until the primaries are over.

Detectives advanced the theory that politics probably were not directly connected with the Deneen-Swanson bombings. Rather, they said, alcohol dealers who blame Senator Deneen for prohibition activity of federal prohibition agents during the past several months, may have hurried the bombs seeking revenge.

The same motive is held for the unsolved slaying a week ago of the Deneen ward leader, "Diamond Joe" Esposito, who fell near his home with 58 shotgun slugs in his body.

The Crowe-Thompson faction has offered \$65,000 reward for conviction of the bombers.

The federal indictment yesterday of Alderman Titus Haffa, Thompson partisan, and nine others on charges of prohibition violations, was labeled a political plot by Haffa and the Mayor. Haffa is a candidate for 53rd ward committee. Those indicted with him included a former Lincoln Park Commissioner, Albert Bauer, and Joseph Bagheria, president of the Republican Boosters' club.

STYLE SHOW IS  
REVELATION OF  
SEASON'S TOGSFine Presentation at the  
Dixon Theater to  
be Repeated

It is really too bad that Flo Zeigfeld did not happen to drop into DIXON last night for had he done so he would have found several of the models in the merchants style show at the Dixon Theatre as ideal types of American girls as could be found anywhere. This was the occasion of the semi-annual style pageant sponsored by the retail merchants division of the Chamber of Commerce and showing the latest in spring and early summer apparel for all functions.

The first display was of coats, wraps, etc., for the ladies and top coats for the men, tan and gray being the outstanding colors with a few very nobby blacks, Kasha being a very prominent fabric with fur trimmings used profusely. In the same episode were displayed dresses and suits for afternoon and general occasions and this brought forth plenty of color including attractive greens while crepes and georgettes seemed to be the popular materials with the girls still adhering to tans and grays.

Next came the sport togs which were really very dapper with many varied hues and novelty designs and with the materials and quality just as varied. There being flannels, silks, satins, prints and wash fabrics of nearly every kind. This was staged in a tapestry effect setting which looked like a mass of flowers and at the end proved to be a transparency which as the lights changed brought out the woodland effect. This illusion was given away prematurely by one of the male models doing a marathon back between the drops but the mistake was made up for in the little laugh it brought out.

## Suits, Street Attire

Suits and street attire was next displayed and brought out some very natty tailored outfits with blues and blacks outstanding and plenty of tans and grays. The fabrics were wools, silks, crepe and numerous suede combinations.

For the closing episode and informal for party, theater and other occasions. Pastel shades were outstanding with pink and peach being favorite although yellow, green, and blue making attractive displays. Taffeta was predominating but many satins and crepe were attractive. The boys were in conventional blue, as neat and showy as though they had been in Tuxedo. The new double breasted vest was used.

## Pretty Furniture

The announcements were made with the Radio effect over the loud speaker, this helped to identify the models though at times was a little too loud to be clearly understood but the idea was well received. The stage settings were bright and attractive. In the sport scene a very brilliant wicker set of red and green tints was used, being furnished by the Frank H. Kreim Furniture & Rug Co., while in the formal or party scene an overstuffed parlor suite of the latest mahogany was furnished by the Mellett Furniture Co.

The models and the respective stores were as follows: The Juvenile Shoppe—Gene Bovey, Rita Bennett, and Betty Bennett; Echler Brothers—Dorothy Hoyt, Ingalette Robertson and Marcelle Bremer; Boynton & Richards—Gerald Cotter, Ray Joyce and Ray Clinette; Kathryn Beard Shoppe—Maurine Gibson, Marian McKinney and Edna Weyant; Howell-Pace Co.—Evelyn Worsley, Lucille Kelly and Frances Campbell; A. L. Geisheimer—Marjorie Hoyle, Ruth Lambert and Rae West; Valle & O'Malley—Robert Tennent, Earl Larkin and Max Kno; Spurgeon Mercantile Co.—Mary Leahy, Madeline Green and Hazel Van Bibber.

All merchants are to be complimented for their efforts to display such an admirable outlay of merchandise, which included numerous importations and French creations and the models were attractive and deserve more than ordinary credit for the success of the production.

Hats and millinery worn were furnished by each respective store except that of Geisheimer's which was contributed by Harkins & Wilson's "Vogue Hat Shop."

Mr. Rorer showed his good judgment in the photoplay he selected which was an all star cast headed by beautiful Norma Shearer, George Sidney and Ralph Erbes and was entitled "The Latest From Paris" which made a real picture for a style show hook-up. Vaudeville numbers were offered between scenes by Bob and Jack Jordan and Bertram's Dan-Sing Trio which were all bright and entertaining, while the musical settings were furnished by the Dixon Theater Orchestra under the direction of Orville Westcott.

The whole show was under the personal direction and supervision of Geo. B. Flint who kept things running in real production manner. This is Mr. Flint's second style show in Dixon and proved that he understands the show business.

FORMER LEE CO. MAN QUILTS AS  
CHIEF OF POLICE AT STERLING  
AFTER SESSION WITH MAYOR

Linn Argraves, formerly of Compton, turned in his resignation as chief of police of the city of Sterling to Commissioner of Public Safety George H. Thomas Wednesday to become effective at midnight Saturday, March 31. Further than the statement, that it was a "choice of resigning or being canned," Chief of Police Argraves declared that he had nothing to say, except that it was not Commissioner Thomas who had formed the move which prompted him to decide to give up his position.

"Under the prevailing conditions, I think it is the best thing for me to do," he added.

Commissioner Thomas, head of the police department, declared that he had not asked Argraves to resign. The decision of Chief Argraves to resign is the result of a conference between Mayor Burkholder and Commissioner Thomas on last Monday night, at which time the former informed the head of the police department that he did not believe the police were functioning as they should.

VARIED TALES OF  
BIG WINNINGS IN  
WALL ST. TRADINGOne Guess is That 300  
New Millionaires  
Have Been Made

New York, March 29—(AP)—Tales of tremendous winnings and losses in the unprecedented stock speculation of the last few weeks aroused some doubts today.

The New York Times said: "A few of these stories are true. Big winnings have been made and big losses too, but most of them are exaggerated with the retelling."

"Many of the seasoned operators have not made money in the present market," said Mr. Buchanan, "because it is beyond their ideas that any market could go so far. Men like Durant are still active, but others like Livermore have preferred to get out. The westerners, on the other hand, came in early and rode up with it."

**Big Commissions.**  
Among the biggest winners and the safest ones too, are the members of the Exchange. The individual houses have never done so much business and the commissions of the big dealers are gigantic.

One big house is credited with handling 840,000 shares in one day, although it refused to either confirm or deny the report. If true, its commissions would be somewhere between \$125,000—the lowest estimate—and \$420,000—the highest. The divergence in these figures is explained by the varying commissions. On 100 shares of stock the commissions vary from \$15 to \$50 according to its selling price.

Failure of the ticker to keep up with the trading is giving operators concern.

The system of abbreviated quotations adopted recently is all that has kept the present markets from being lost in hopeless confusion. Under the old system, observers believe, the ticker would have been two hours or more behind the market instead of thirty-three minutes as it was at one time Tuesday.

Former Amboy Lady  
Dead in Rockford

Rockford, March 29—Mrs. Irene Bell Winkquist, 29, wife of Verne Winkquist of Rockford, died Tuesday afternoon at 2:30 o'clock at St. Anthony's hospital following an operation Thursday, March 22. She was admitted to the hospital a week ago Wednesday.

Funeral services will be held Friday afternoon at 2:30 o'clock at the home. The Rev. H. M. Bann will officiate and burial will be in Willowood Burial park.

Mrs. Winkquist was born February 28, 1899, at Amboy, the daughter of Mr. and Mrs. Frank Springer, and had lived in Rockford 11 years. She was a member of Amboy Baptist church.

Besides the husband, Mrs. Winkquist is survived by two sons, Paul and Lawrence, at home; her parents, two brothers and four sisters, Frank and Paul Springer, Jr., Rockford; Mrs. Ray Kastler, Des Moines, Ia.; Mrs. Ralph Talackson, Mrs. Claude Dickens and Miss Daisy May Springer, all of Rockford.

Man Caught Fire  
in Rochelle Plant

Rochelle, March 29—E. Tarves Bastos, a Spanish mechanic, employed by the Geo. D. Whitcomb Co., had a miraculous escape from death here yesterday afternoon, when his clothing caught fire. Bastos was working under a 30-ton gasoline locomotive and broke an electric light bulb, and sparks ignited gasoline oil and waste and fringed his clothes. Badly frightened he extricated himself and started running for the nearest door. Foreman Hugh A. Hay, quickly sizing up the situation, blocked his escape and an associate put out the blaze with a fire extinguisher. Bastos was taken to the Lincoln hospital and will be all right in a day or so. He is learning to become a special field demonstrator for the Whitcomb company in Spanish-speaking countries.

## BULLETIN.

Enthusied by the success which rewarded their efforts in the Chamber of Commerce membership drive, which ended at noon today, when a total of 354 members were reported, the workers this afternoon joined in a pledge to President Ray Kline that they would continue their work until the membership totals 400.

A fitting and deserving display of the confidence placed in President Ray Kline, the board of directors and advisory board of the Dixon Chamber of Commerce was manifested at noon today when the drive for 350 new memberships in that organization was completed and the final figures showed that the goal had been exceeded and 354 memberships had been secured. The noon meeting at the Christian church today was not one of plans but one of jubilation.

Working against heavy odds, many of the team members being sick, those who were able exerted a special effort on the last day of the drive and by so doing maintained DIXON'S record in the central west as being a city which accomplishes things which its citizens set out to do. While the goal of 350 memberships has been reached, the campaign is by no means closed, as President Kline announced. Many citizens who are interested in the Chamber of Commerce have not been solicited and the workers are to be organized as "minute men" to carry on a campaign in which it is hoped that many more memberships will be added in this manner. The progress of the four day drive is shown by the following table, starting with Monday and closing at noon today.

Monday	148

## Burch's Team Leads

In his brief talk President Kline complimented every worker for his efforts in the drive, including the ministers and The Evening Telegraph for co-operation and the publicity which has been given. The final report of the team captains showed 109 memberships secured since noon yesterday with the Top-Notchers team captained by George Burch in Major Roy Glassburn's Orange division leading with 27 applications. The Orange division turned in a total of 68 applications today against 38 from Major John Meyer's Green division.

Col. Frank D. Palmer, chief officer of the campaign, was the toastmaster at the meeting this noon. In a few remarks, he complimented President Kline for his efforts and also the workers who have given unstintingly of their time in this campaign which is for the interests of every citizen of DIXON.

Mayor Palmer called upon Douglas Harvey to address the workers, and his talk was highly inspiring.

"Co-operation in this drive being the success that it has, but this spirit of endeavor and salesmanship cannot be permitted to halt at this time. The job has just begun. All of us who have participated in this campaign are salesmen. Every citizen of Dixon is a salesman whether he be in business, a professional man or one who remains at home, for the man who remains at home must sell himself to this wire. The future success of DIXON and its Chamber of Commerce depends upon this salesmanship."

## Should Include All

"The Chamber of Commerce should not be a body of business and professional men in DIXON any more than in any other city. It must include all classes of its citizenship. It is my belief that the plan to bring the different branches of the laboring class of citizens into representation on the advisory board is a step far in advance of any part of the program. All classes of citizens should be included and the board of directors must ascertain their ambitions in order to make this year's program a success. The placing of

RAYMOND BURR'S FUNERAL—The funeral of Raymond Burr, son of Mr. and Mrs. Ray H. Burr, will be held Friday morning. A short service will be conducted from the home, 916 Fourth street at 9 o'clock and from St. Patrick's Catholic church at 9:30 with interment in Oakwood.

Three Americans are Dead in Plane Crash—Mexico City, March 28—(AP)—A sudden gust of wind caused a plane carrying three Americans from Nogales, Arizona, to Mexico City, to crash in the streets of Toluca, yesterday, killing the occupants. The victims were:

Sterling Rohlfis, wealthy New Mexican cattle man.

William E. King, authority on mining law, of Douglas, Ariz.

Wallace Springer, cattleman of Cimarron, N. M.

Word of the tragedy was sent here by Riva Palacios, Governor of Toluca, to Alexander W. Weddell, American Consul General.

The Governor said the airplane, piloted by Dohlfis, was about 1,000 feet above the city when a strong gust of wind caught it. The pilot attempted to make a landing. The machine went into a nosedive and crashed in a side street near the center of the city.

Rohlfis was the son of Mr. and Mrs. Charles Rohlfis, of Buffalo, N. Y. Mrs. Rohlfis is Anna Katherine Green, writer of mystery stories. Sterling Rohlfis was manager of the Bartlett ranch in northern New Mexico. He took up flying about five years ago both as a pastime and to enable him to cover speedily the broad territory of which he was in charge.

He flew the wrecked plane from New York to Douglas, on Thursday, he left Douglas for Mexico City by way of Nogales with King and Springer on what was understood to be a pleasure jaunt.

Fluors on Second—Day of Long Flight—Jacksonville, Beach, Fla., March 29—(AP)—Their huge black and orange monoplane sailing easily back and forth along its appointed thirty miles strip of seashore, Eddie Stinson and Captain George Haldemann today entered well into the second day of their attempt to set a new world record for sustained flight. At 11 o'clock the plane had been in the air more than 27 hours.

Since 7:37 yesterday morning the two pilots have "spelled" each other at the controls of the big Stinson-Detroler plane, driving it through perfect weather toward their goal of 35 hours in the air—a sustained flight which would more than shatter the record now held in Germany. Fifty-two hours and 23 minutes is the present mark, but it must be exceeded by at least an hour to be officially supplanted.

Pilots and mechanics who went up yesterday to fly alongside the Halde-mann-Stinson plane and observe its behavior stated that it seemed in perfect fettle, that the motor was humming smoothly and that no difficulties were apparent. Notes by the pilots confirmed. These observations and last word from them last night was highly optimistic.

Four whole fried chickens were taken aloft by the pair to provide pieces of real service for meals in the air. Other edibles included six lemons, six oranges, a dozen sandwiches for casual lunching, a thermos bottle of soup, coffee, water and three quarts of milk.

When you renew your subscription make your check payable to the Dixon Evening Telegraph.

## FLIGHT OF THREE GERMANS DELAYED 'TILL MORROW

## Reports of Unfavorable Weather Cause Postponement

Dublin, March 29—(AP)—Three Germans eager to be the first to fly the Atlantic from east to west today settled down to wait for favorable weather. Disappointing reports of Atlantic weather again delayed the start of the Junkers monoplane "Bremen" which had been provisionally set for dawn today and the hop was definitely postponed until tomorrow morning at the earliest.

The flyers, despite their eagerness, have not weakened on their decision to wait until they believe the hope to New York can be made with every reasonable chance of success.

A long wooden runway, stretching in the direction of Galway and America, was completed to aid the takeoff. Baron von Huenfeld paid an Irish farmer \$350 to tear down a stone wall at the far end of the field so that the plane will have a mile and a quarter straight away for lifting its big weight of three men and 2500 litres of fuel into the air.

The wings of the plane were oiled to prevent ice forming when the flyers reach the area of fogs and mists or rain and cold winds. Ice they consider their greatest enemy and to avoid this they may head direct for New York, if necessary turning south whenever cold winds or rain are encountered. Thus the plane may miss New Foundland altogether—the first time any such Transatlantic flight has been so attempted.

Is Champion Cow—Chicago, March 29—(AP)—Anna Payne Piebe, a California Holstein-Friesian cow is the new champion of the United States in butterfat production as a senior two-year-old during a period of 305 days.

She produced 794.32 pounds of butterfat, equivalent to 923 pounds of butter, from 23,208.3 pounds of milk, according to the records of the advanced registry office of the Holstein-Friesian Association of America.

This amount of butter, according to today's market, is worth \$415.35.

Anna Payne Piebe was bred by H. O. Niemann of Avoca, Ia., and is now owned by Mrs. F. Stenzel of San Lorenzo, Cal.

Goiter Not a Disease—Milwaukee Doctor Makes Remarkable Discovery.

Milwaukee, Wis.—It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such, Dr. A. A. Rock, Dept. 695, Box 737, Milwaukee, Wis., a prominent goitre specialist for over 15 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The Doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations. Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. ## NEWS OF THE CHURCHES

SERVICES AT NELSON—Tomorrow evening, half-past seven, B. H. Cleaver of Dixon will conduct religious services in Nelson school house, to which all are invited. There will be with reference to the Easter season, and the sermon-theme will be, "Why Jesus' Death Was Different?"

Dixon Barber Will Open Sterling Shop—Tom Mitchell, owner of the Crystal Barber and Beauty shop in this city, is opening a new shop in the fine new Central Trust bank building in Sterling. The beauty shop was opened yesterday and is in charge of Miss Dorothy Ramsey who is assisted by Mrs. Olman. Its equipment is of the latest design and modern in every respect.

The barber shop will open Monday morning and will be in charge of Ray Hoffman, well known Sterling tonsorialist. The shop will accommodate four chairs of a special design and the equipment will be of the same type as used by Mr. Mitchell in his Dixon shop. The rooms are white enameled, well lighted and with mahogany trimmings, facing the lobby on the ground floor. It was at the request of the bank officials that Mr. Mitchell was persuaded to take over the two departments and install the fine equipment.

## SUSPECT HELD FOR MURDER IN ROCKFORD FREE

## Police "Tip" on Diverno Proved to be Erroneous

Rockford, Mar. 29—Search by the police for "Big Jim" Diverno, Freeport run-runner who is wanted here on charges of murdering Lawrence McGill, junkyard night watchman, in January, was thought at an end in Cicero until Assistant Chief of Police Homer Read established that a suspect picked up there was not Diverno.

The Cicero police have been combing the underworld of their town to discover the man accused of shooting McGill, who had stopped to watch guests at a betrothal party at Keefe street and Fifteenth avenue. Yesterday they thought they had their man. He answered almost exactly the description of Diverno.

Assistant Chief Read went to Cicero to aid in the establishment of identity of the man but found that the trail was not yet ended.

Special operatives will continue to look for Diverno, who is believed to be hiding in Cicero.

Guard Murderer of Aged Iowa Woman—Des Moines, Iowa, Mar. 29—(AP)—Deputy sheriffs, armed with shot-guns and tear bombs, stood double guard today over Dewey Doss, confessed slayer of Mrs. Martha Smith, 82-year-old farmer's wife of Rising Sun, Iowa.

They sought to prevent any repetition of two unsuccessful attempts made Wednesday night to take the prisoner, a deserter from Fort Snelling, away from the Sheriff who was returning him from Potosi, Mo., where he was arrested Sunday.

An early attempt to obtain custody of the prisoner had been made when a group of men, headed by Ortho and Lester Smith, sons of the slain woman, boarded the train at Russell, Iowa, and demanded that Doss be turned over to them. They were ejected from the train under threats from Sheriff Paul Findley that "the first man to step on this platform will get killed."

### OLD MASTERS

**THE GREEN KNIGHT**  
Trim little knight in armor green,  
Gay little frog so bright and clean.  
You seem quite bold as you hop along  
And there is brag in your twilight song!

But now I know you're not that brave  
But quack and quail just like a slave  
Because I chased you through the grass  
And stopped your flight at every pass.

I drove you to a rock Titanic,  
Saw your heart and throat in panic—  
But don't fear that I will scold  
Because your picture looks too bold.  
Gay little frog so bright and clean,  
Trim little knight in armor green!

### Plunge in Pool is To Start the Day

Chicago, Ill., March 29—(AP)—Early morning invigorating plunges in the clear, cold pool of San Pedro Park, will start each day for the Illinois "Juniors," several hundred of whom are expected to attend the biennial convention of the General Federation of Women's Clubs at San Antonio, Texas, from May 28 to June 7.

Supplementing a recreational program for the daughters of the Illinois clubwomen, who will go to the convention, will be educational program, especially devoted to children's interests. Mrs. Walter W. H. Schwedler, executive secretary of the Illinois federation said: "San Antonio's girl scouts will assist in entertaining the visitors and on June 1, a "play day" and "gals ball" will be sponsored for the girls.

### Continued Improvement Cause for Cheer

Northampton, Mass., March 29—(AP)—Continued improvement in the condition of Mrs. Lemira Goodhue, 78 year old mother of Mrs. Calvin Coolidge, cheering the wife of the President today.

Mrs. Goodhue who has been at the Dickinson hospital since she suffered an attack of influenza last December and who experienced a relapse last Sunday, spent her best day in a week yesterday.

Mrs. Coolidge, who returned to her former home here to be with her mother, was with her twice yesterday, once for three hours.

### Shepherd's Class Enjoyable Meeting

The Shepherd's class of Grace Evangelical Church met Tuesday evening at the home of Darrell Palmer.

The Scripture lesson was read by Raymond Messner, followed by a prayer by Mrs. A. W. Hartman.

Mrs. Hartman then gave a study on, "How to use your Bible."

Rev. Brandteller gave a talk, "The Seven Dispensations," which was enjoyed by everyone.

After the usual business was disposed of, the hostess served a delicious lunch. A lovely time was reported by all those present.

The April meeting will be held with Mrs. Lily Howe.

### Evening Bustles Call for Jackets

**BY HAZEL REAVIS**  
(Associated Press Fashion Editor)  
Paris—(AP)—Spring styles in evening dresses often make the wearing of wraps difficult if not almost impossible.

Stiff taffeta made with gigantic "choux" cabbages in the back or on the side is sure to "hump" when coat or cape is draped over it.

But as Paris will have its bustles and puffs nearly every dressmaker shows some form of short jacket or cape, suitable for midsummer wear over dresses with elaborate skirts.

The shoulder capes, plus the new evening skirts, elaborately ruffled or draped, give a mid-Victorian touch to evening fashions and set them apart from the straight lines and simple clothes most women wear in the daytime.

Nearly every creative dressmaker uses stiff taffeta in some form, usually draping it to a pouf on the side, or a bustle in back. These drapes fall in pointed panels, or form small

trains. Printed chiffons are frequently treated in the same manner, or combined with stiff silks. Paris makes many duplicate designs this season, repeating patterns on taffeta, chiffon and satin.

Some of the new evening gowns have skirts that nearly trail the floor but are made of narrow panels which hang from the waist. With every step these gowns reveal an extremely short skirt beneath, or perhaps equally short trousers, Jeanne Lanvin makes such dresses of taffeta. Louise Boulanger uses several thicknesses of net or crin.

The net dresses have tight bodices embroidered all over with beads and the same beading is repeated on the foundation skirt or trousers.

Mrs. Michael Weill, San Francisco society woman and Miss Hallie Stiles, Metropolitan opera singer, have examples of the new evening fashions in their wardrobes. Mrs. Weill ordered a read and green covered taffeta dress with two large poufs in back, extending into long draperies which just clear the floor. Miss Stiles purchased a short jet jacket with jet bell sleeves, for wear over a black chiffon dinner dress.

### "Seven Last Words of Christ", Beautiful Service Sunday at 4:45

The Presbyterian choir, under the direction of Miss Emma O'Brien, and assisted by members of other choirs, will sing Dubois "Seven Last Words of Christ," for the afternoon service at the Presbyterian church next Sunday. There will be a choir of over thirty voices. The service will begin at 4:45 o'clock.

Charles Young and Frank J. Flood of Chicago, and Miss Ruth Dysart of Dixon will sing the solo parts. Mrs. Nathan Morrill will accompany on the piano and Mrs. Will Smith will preside at the pipe organ.

Mr. Young sings a lyric tenor and has made extensive tours in this country in concert and as soloist with Sousa's band. The Hyde Park Herald of recent date gives Mr. Young a most complimentary notice on a concert given at the Windermere West in a program of beautiful Irish songs and speaks of the power, which is Miss Schuman-Heink, for she encouraged and inspired him. He is "one of her boys." He served during the World War and is included with the other young men whom she calls her boys. He was recently soloist with Sousa's band and with the National American Legion Band at national and state conventions.

The critics in the Chicago Press are most lavish in their praise. The Musical Leader says: "Mr. Young might well serve as a model for many young singers. He has the ability and the training to sing well and he has a keen intellect to search out the meaning of the song, and the talent to project it as he finds it."

"A bell-like clearness and richness of tone," reads another and so on.

Mr. Flood is the solo bass in Dr.

J. Lewis Brown's Cathedral Choir of Chicago and he is noted as a singer of power and sweetness, and his press notices are most flattering. Dixon people will no doubt take advantage of the opportunity of hearing these gentlemen who will take the leading men's parts in this lovely service. Miss Dysart has a voice of exceptional power, range and sweetness.

### POINTERS TO PARENTS

(From "Children—the Magazine for Parents.")

Fear can and does fester in the souls of many adults who were frightened in their youth. Even when they are no longer consciously afraid of the thing that frightened them in their youth, they are afraid of fear, ashamed of their own cowardice. They are always something less than the fulfilled and richly living men and women they should be.

From their early years encourage your children to talk about the things that happen to them. This will help you understand them and will save them from unnecessary suffering due to hesitancy in bringing you their problems.

Every day in a child's life is a day of growth. It takes nearly 25 years to produce a fully developed adult. At no stage of this progress can we afford to ignore the influence of food.

The first seven years are the most critical—the baby may be made ill by a single unsuitable meal; the pre-school child is far more sensitive to an inadequate diet than the school child.

We cannot make up later for dietary deficiencies which have produced poor teeth or a contracted chest or have caused permanent injury to the digestive tract. In this sense the first seven years determine physical fitness.

Any parent may become his child's first music teacher. Musical educa-

tion is no longer a matter of scales and technic.

Before scales, or if never scales, the child should be helped to a friendship with good music and an understanding of the language of which scales are the alphabet.

Practice in the hearing rather than in the making of music is now not only the foundation of study but in the words of the late President Eliot of Harvard, "Actually it takes its place as an education—as a means of developing the human child—nothing will more perfectly cultivate the human spirit."

### House Passed Navy Bill Without Vote

Washington, March 28—(AP)—Carrying funds for two superdirigibles and for continuation of work on eight 10,000-ton cruisers and two fleet submarines, the 1928-29 naval appropriation bill was propelled over to the Senate today stamped with House approval.

The measure, as passed without a record vote by the House late yesterday, provides \$359,000,000 for the naval establishment, or more than \$20,000,000 above the funds available for this fiscal year. Among other things, it calls for maintenance of the navy at its present strength.

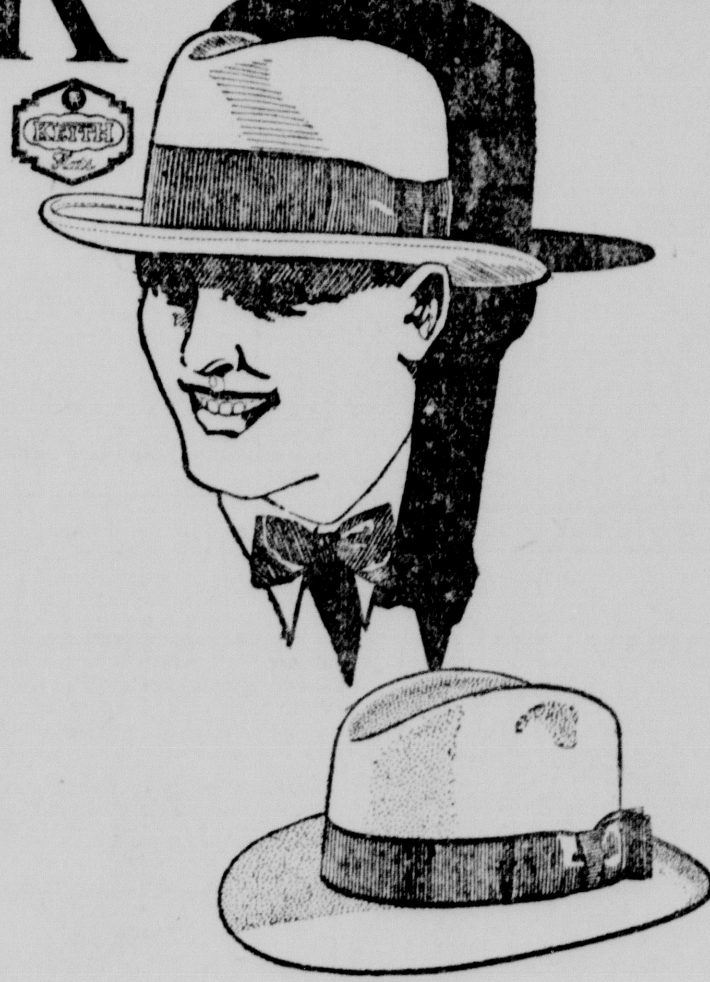

Described by Rear Admiral Moffett, Chief of the Naval Bureau of Aeronautics, as "the most important step taken by this country to take its rightful place in the merchant marine of the air," the measure provides \$2,000,000 to start construction of the two dirigibles. Their total cost must not exceed \$8,000,000.

A long debate over the method of letting contracts for the big airships preceded passage of the measure.

The Goodyear concern sometime ago presented a bid to build one of the ships on a cost-plus basis. This was refused by the Navy and the company now is said to be willing to bid on both craft at a cost of \$8,000,000.

The ships would be equipped to carry five airplanes each, with machinery for launching and landing the planes while the dirigibles are in flight.

## CAMPAIGN FUNDS.

The opponents of Governor Small, in their desperate effort to make campaign issues, have much to say about state employes being "forced" to contribute to the campaign fund. They sympathize with "poor scrub women" who are "forced" to give half of a month's wages to the fund, and declare that all employes are drained of big sums under pressure of losing their jobs. That is nothing but plain, pure bunk.

Since the time when the memory of man runneth not to the contrary people who held political jobs have been glad to contribute to campaign funds to help keep their party in office, for it meant that they too might stay in office. We presume that practice will continue. State employes under Governor Small's administration are no different than any others and no doubt many of them voluntarily contribute, but their contribution is purely voluntary, and each contribution is gauged by the individual.

We happen to know of one case in Lee County where it was reported that a certain man who is on the state payroll made the declaration that he had to give fifty per cent of his pay check to the campaign fund. When his statement was investigated it was found that he had not given one-half of one per cent. In fact, he had given absolutely nothing, nor had he been asked to give any, and he finally admitted the same.

Don't be misled by these stories. They are circulated merely to prejudice gullible people.

## "DON'TS" FOR WRITERS.

Most advice to writers consists of long lists of "don'ts." And if you ask us, if we were really giving advice we should embody it in one big "don't." It would be: Don't pay too much attention to lists of "don'ts."

Obviously, a writer should have a working knowledge of the language, including familiarity with the rules of syntax, and at least a nodding acquaintance with rhetoric, and some other phases of the phrase-making art, the names of which have for the moment escaped us.

The beginner should stick rather closely to the rules, at least until he learns how to break them effectively. Adherence to a severe style is a safe course until one really has something to say. Then, if ever such a thing happens, it is a good idea to say it in the most direct and forceful manner possible, even though a rule or two gets smashed in the process.

On the other hand, rules should not be broken merely for the sake of hearing their bones crack. If the thought can be conveyed attractively and effectively by a strict observance of all the niceties, well and good. But some writers appear to be more concerned with displaying their knowledge of the rules than they are with expressing the alleged idea they have in mind. Consequently their productions have about as much animation and warmth as the text of a chattel mortgage.

Language is primarily designed for the expression of thought, or the concealment thereof. In either case, rules are a means and not the end. The important thing is to make plain what you are driving at, as well as that at which you are driving.

## MAYOR WALKER'S WISE REMARK.

We outside of New York sometimes find it rather hard to understand and appreciate that city's dapper young mayor, Jimmy Walker.

But now and then this well-dressed executive gets rid of a remark that we can all subscribe to, nevertheless.

The other Sunday he spoke in a New York Methodist church. He emphasized the need of tolerance and neighborliness, saying that "as soon as we have enough brotherly love we can throw away our penal code."

That little remark may be platitudinous; it may be trite and threadbare. But, after all, it is something on which we can all unite. It is profoundly true. It presents a goal toward which, sooner or later, we will all have to work in unison.

Chicago has some new police patrol wagons which have red tops, robin's egg blue sides and richly upholstered seats. The city has to have decent accommodations for its leading citizens.

Hollywood folk will have to perk up now that we can hear what they say on the screen. But no matter how dumb their dialog, it's bound to be a 99 per cent improvement on those "Came the Dawn" subtitles.

The racing gentlemen have barred Mr. Sinclair's horses from four race tracks. Horse racing just has to be kept on the level, you know.

It takes all kinds of people to make a world. If you're not hard-boiled, someone is likely to call you half-baked.

And here's a headline you'll never see: "Robinson Invites Al Smith to Public Debate on Birds' Feathers."

A certain young air mail pilot named Charles now has enough medals to make a complete suit of mail.

## THE KNYMITE'S

STORY BY HAL COCHRAN—PICTURES BY KNICK

The bunch soon reached the baker's side. "Well, here we are," the sifter cried. "We understand you need us 'cause you're going to make a cake. We'll promise you that we'll play fair and very gladly do our share. Without us there is not a thing a baker man can make."

"You're right," the friendly baker cried. Then Clowzy ran up to his side. Said he, "Please tell me how to start this little cake of mine. I couldn't even bake a roll, or anything to save my soul, but if you'll show me, I am sure that I will do real fine."

The baker snapped, "Now we'll show speed. A bowl's the first thing that we need, and here's a dandy big one that will answer very well. We should be through in about an hour. Now, first of all, put in the flour. Just at this moment both the sacks of flour began to yell.

"Hey, baker, we are sewed up tight. The flour in us is out of sight. You'll

have to cut the little string to let the flour run out." The baker said, "Well, it appears that you are right. Then, with some shears, he cut the little strings loose and this made the Times shout.

"The sacks' tops soon were open wide, and Clowzy took a peek inside. Said he, "This flour is wonderful. It's white as it can be. And now that we have cut each hole, come on, let's pour it in the bowl. I'll bet when it is heaped up high, it's quite a sight to see."

"All right! Get busy!" Clowzy cried. "As soon as it is all inside, I'll stir it up a bit and add a lot of other things." Of both the sacks the bunch grabbed hold. Into the bowl the white flour rolled. Said Clowzy, "We shall soon see just what sort of luck this brings."

(The cake goes into the oven in the next story.)

## MARYE and "MOM" Their Letters

BY RUTH DEWEY GROVES

Marye dear:  
Reading your husband's mail isn't consistent with the preachings of up-to-date wives. Not that I blame you for reading the letter you found in Alan's pocket—I believe nine wives out of ten would have done the same, modern or old-fashioned. But your one-sidedness does amuse me in view of your live-and-let-live declarations of the past. I'm sure you would say that no one has a right to open another person's letters. Reading them is equivalent to opening them, my dear. You can't accuse Alan of snooping any more than yourself.

However, if these startling discoveries on your and Alan's part serve to make you put the boy out of your life you may be glad at least that the letter was written. I take it for granted there was nothing very alarming in it since you did son care to make a 'crisis' of it, as you say.

For even though you are handicapped by Alan's knowledge of Billy's attentions to you, I'm sure you would have given scant consideration to keeping the peace if you'd found anything in his correspondence to really arouse your jealousy.

You needn't try to hoodwink me, Marye. You know Alan has as much right to complain of Billy as you have to object to his feminine friends. Your ultimatum to your young friend about the presents surely proves that this reasoning is correct whether you realize it or not. You wish to uphold your right to censure Alan's conduct yet you know you cannot do this unless your own state is immaculately clean. I do hope you realize this, my dear, and that you are not sincere in pretending that you warned Billy in the interests of peace merely for Florence's sake. It would be too bad indeed if you were deceiving yourself about your motive, for it is a motive that needs looking into.

You cannot go no doing things that are taboo for Alan unless you are willing to give up the privilege of objecting to occurrences that displease you. Be honest, dear. Admit that what's sauce for the goose is sauce for the gander. You know that you're refusing Mr. Bartlett's presents simply because you don't want to give Alan the upper hand. I'm sorry you discouraged the young man for reasons other than that it was the proper thing to do but I hope you really mean to drop him now even though it is for a reason I do not commend.

With all my love,

MOM.

## A THOUGHT FOR TODAY

## FELLOWSHIP OF PRAYER

Union with Christ. (Read John 15 1-8) Memory Verse: He that abideth in me and I in him, the same beareth much fruit. (John 15:5.) Jesus was always using common things to illustrate great truths. "I am the vine, ye are the branches." In this way he pictured the power that comes into every man's life that is in contact with His life. The branch does not struggle and toil that it may bear grapes. It has no need to do so. It need only remain in unbroken connection with the parent stem. So it is with people. The secret of larger attainment may, in part, be more labor, for few of us strive as diligently as we might for excellence. But the more promising way is intimate association with Christ. If His Spirit is in our minds this day, we need not be concerned lest our conduct be not good. It will be good as inevitably as the branch of the good vine will bring forth good grapes.

Prayer: O Thou, in Whose life we

find our life, through the gift of Whose spirit we do our work and bear our burdens, grant us now the sense of thy nearness. We would open our hearts freely to thy spirit, our minds to thy law and our wills to thy quickening energy. Dwell in us and make us fruitful. Amen.

Boast not thyself of tomorrow for thou knowest not what a day may bring forth.—Prov. 27:1.

There is no divining rod whose dip shall tell us at twenty what we shall most relish at thirty.—N. P. Willis.

## PRESIDENTIAL PORTRAITS

## The Story of Jim Reed

(EDITOR'S NOTE: This is the first of a series of articles on the outstanding presidential candidates, written especially for The Telegraph and NEA Service by Robert Talley. A second article on Senator Reed will appear tomorrow.)

BY ROBERT TALLEY  
NEA Service Writer

Washington, March 29—Eight years ago he was rotten-egged in Ardmore, Okla., condemned by the North Carolina legislature as "a traitor who ought to be shot," threatened with being ridden out of town on a rail in Arkansas, upbraided by millions in his own party and even denied a seat in the Democratic National Convention at San Francisco.

Today, Senator Jim Reed, the fiery Missourian, is a candidate for the presidency, with a record of one of the greatest "comebacks" in the history of politics.

In place of the "Rid Us of Reed" clubs that swarmed in his state in 1920, there are now active organizations working for his nomination.

The real story of Jim Reed is the story of his fight with Woodrow Wilson over the League of Nations. It was a clash of political giants, bitter with hatred on both sides and trailed by inflamed public opinion.

Jim Reed sits in the senate today, known as a man who is rugged, honest and utterly fearless. He has many good attributes, but there is nothing lovable about him despite his grandfatherly appearance. He is a bitter fighter who neither asks nor gives any quarter; in the heat of debate his face distorts to a snarling mask, his clenched fists quiver, his words sting his enemies like poisoned arrows.

"Fighting . . . fighting . . . fighting; everything I've ever got in this world I've had to fight for," he once said.

And that is true.

Orphaned when eight by the death of his father, he and an older brother had to fight to support their widowed mother on a farm in Iowa, to which the family had moved after his birth in Mansfield, Ohio, in 1861.

He fought to get an education during the three months of the winter that the country schools ran, he fought to continue his studies at Coe College, he fought poverty to study law in a lawyer's office, he fought his way into politics, he fought his way into the mayor's office at Kansas City for two terms and in 1910 he fought his way into the U. S. Senate. And, after 18 years as a member of that body, and at the age of 66, he still is fighting.

The silvery-haired veteran is not only one of the most eloquent men in the Senate, but also one of the most elegant. He always looks as if he had just stepped out of a bandbox—clothes faultlessly tailored, collar and cuffs immaculate, a colorful

tie fixed just so, nails gleaming from a fresh manicure. He is one of the Senate's Chesterfields.

Reed decided to become a lawyer when he was 10 years old. A farm boy, he chanced one day into a courtroom at Cedar Rapids, Ia., and watched in silent admiration as two country lawyers tore each other to tatters in a bit of frenzied litigation over a dog. It fired his youthful imagination.

A half century and more has rolled by since that day, but Senator Reed still tells that story. The details of that famous law suit have come down to posterity, although nothing more is known of the dog.

Education completed, he sold a horse for \$135 to buy a law library and was admitted to the bar at 24. At 27, he married Miss Lura M. Olmstead and, seeking newer and brighter fields, moved from Cedar Rapids to Kansas City.

In Kansas City, Reed hung out his law shingle. There were lean years with few clients, but his ability as a speechmaker began to win him fame in political circles. So, in 1896, he was appointed county attorney—his first political office.

For two years he was prosecuting attorney and the record shows that he prosecuted 287 cases and got 285 convictions. How the other two escaped is still a mystery.

"There is nothing remarkable about that record," Reed says. "I never prosecuted a man until I had convinced myself that he was guilty. And then I went after him with everything I had."

The year 1900 found him beginning his first term as mayor of Kansas City, to be followed in 1902 by a second. His administration went after the public utilities and secured many beneficial concessions in the way of reduced rates for the people. He also was the first mayor to force a street railway to bear the cost of street paving between its tracks.

In 1904 Reed retired as mayor and ran for governor against Joe Folk. He was beaten. That may or may not have disheartened him, but at any rate he quite politics for six years and engaged in the practice of law.

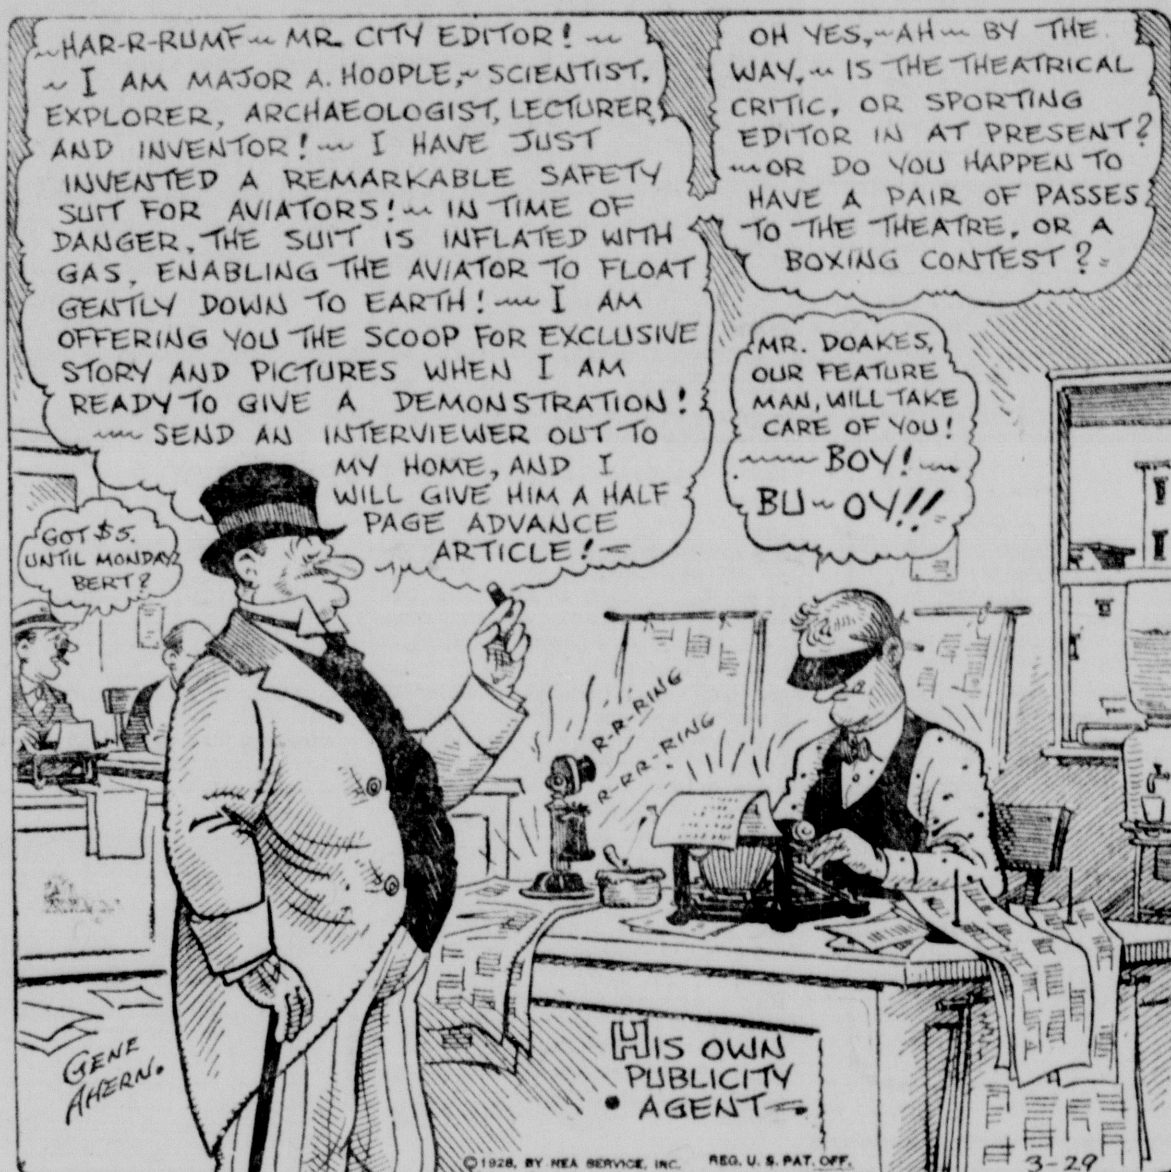

In 1910, he returned to the political arena to oppose David R. Francis for the Senate. Francis, unhappily for him, had bolted Bryan in 1896 and Reed made the most of it. Reed was elected to the Senate where he has served ever since.

Years rolled by, the World War was fought and won, and then came Reed's bitter battle with Woodrow Wilson over the League of Nations which, it seemed then, had wrecked Jim Reed's chances for all time.

They said Jim Reed sat up late at night just to hate Woodrow Wilson—but that bitter, merciless and his-

## SELECT FOOD OF THE RIGHT QUALITY

One of the most important objects you should have in mind in selecting the foods which are to constitute your diet is to learn to select the foods of the proper quality.

As the builder chooses materials out of which to construct a building, so you should study with the utmost care the materials out of which you are to build your body, not alone for strength and endurance, but for beauty of form and symmetry.

Although your system has the important power of choosing the elements needed from the mass of conglomerate substance you burden your digestive organs with, it is not wise to over-work your assimilative functions with so much needless material you are in the habit of using for food. We need food solely to supply the essential elements for building foods necessary for the body are those and repairing cell structure. The only containing these vital elements.

Probably the most needed substance is that supplied by the protein foods, such as meats, eggs, cheese, nuts, fish,

fowl, etc. Our muscular systems require these important protein foods and the body can not long exist if deprived of them. Next in importance are the foods which embrace the vitamins and organic salts, such as those found in the non-starchy vegetables. Chief among these vegetables are celery, spinach, asparagus—in short, all of the greens and also the small tender non-starchy squashes, as Summer Squash, Zucchini, Chayotes and Cucumbers. These vegetables provide the vegetable minerals out of which we construct and repair the nucleus of the nerve, blood and bone cells.

No living animal cell can long exist without these indispensable elements. Fruits also furnish a large supply of these vital principles, so needed by our bodies, often stored on so much tasty denatured food so common on the modern table.

If you do not learn to select your food from the standpoint of proper quality, you cannot expect the Grocer or Butcher to do this for you.

## Farm Assn's. Meet

Chicago, March 28—(AP)—Farmer leaders from eleven midwestern states met in the offices of the American Farm Bureau Federation here today for a two-day discussion of taxation, waterways, farmer relief and other questions of interest to agriculturists.

A new idea was advanced in the discussion of the problem of direct marketing of cattle and hogs which has been interesting livestock producers, packers and commission men. Direct selling would open a wider competitive field and bring better prices to the producer, it was asserted.

C. A. Stewart, executive secretary of the National Live Stock Producers' Association, led in the discussion.

Blindfolded

James Montgomery Flagg selects  
Old Gold

Actual photograph of JAMES MONTGOMERY FLAGG, taken in his studio while test was being made

## How Test Was Made

Subject was blindfolded, and, in the presence of two responsible witnesses, was given one of each of the four leading cigarettes to smoke. Coffee was served before each cigarette to clear the taste. Subject was entirely unaware of the identity of these cigarettes during test. After smoking the entire series of four cigarettes, subject was asked to designate by number his choice. In the case presented here, Mr. Flagg's first choice was cigarette No. 2, which was OLD GOLD.

"Most of us smoke names and think we are smoking cigarettes! The blindfold test proved that to me and that it is difficult to tell one cigarette from another . . . except in the case of OLD GOLD . . . I spotted that . . . it suited me best even blindfolded. In fact, the man who said 'not a cough in a carload' knew whereof he spoke. It's the smoothness that identifies OLD GOLD. It needs no other trade mark."

## ATHLETIC BOARD PUNISHES BOXER WHO FOUGHT FOUL

### Big Boy Peterson is Suspended and Fined Half of Purse

(Telegraph Special Service)  
Chicago, Ill., Mar. 29.—Chairman Paul Prehn of the Illinois Athletic Commission today announced the following decisions of the board as the result of yesterday's meeting here:

After consideration of the facts and evidence as submitted in the case of Roberto Roberti and Big Boy Peterson, the Commission is of the opinion that a foul was committed by Peterson, and rules as follows: That Big Boy Peterson be suspended and his license revoked for a period of sixty days and be fined 50% of his purse, effective as of March 23rd. (Purse was \$750.00).

Boxer Matt Matthews of Kenosha, was suspended and his license revoked for six months for being overweight and his failure to fulfill contract for the bout in which he was to take part at the Lake Shore A. C. on March 24th, effective as of that date; his Manager, Ed Siegel of Chicago was suspended and his license revoked for an indefinite period for failure to keep in touch with Matthews, and seeing that he was in proper condition to fulfill the contract, effective March 24th.

Boxer Frankie La Marre of Chicago, was suspended and his license revoked indefinitely for his failure to appear for the weigh-in and contest at the Pioneer Boxing Assoc. show on March 26th, effective as of that date. Manager Carl Osman, of Gary, Ind., and Boxer Hersie Wilson of Danville, Ill., suspended and their licenses revoked for a period of thirty days for failure to consummate contract previously arranged for a bout at Peoria on April 2nd, effective as of March 26th.

Boxer Tommy Corbett of Chicago suspended and his license revoked for a period of thirty days for being 1½ lbs. overweight on Jim Mullen's show March 23rd, effective as of that date.

The Commission OK'd the match to be promoted by Mique Malloy at the White City roller rink for April 16th between Joe Dundee, the welter-weight champion, and Joe Simonich, granted Dundee permission to train in his home city until three days before the date of this bout, due to his wife's illness.

The following dates were granted: Mique Malloy, April 16th in lieu of April 9th, previously granted; Roy F. Hall at Kewanee—April 20th.

The present status of Dave Miller as a Referee with this Commission

is that he has never been suspended and therefore no re-instatement would be necessary. Referee Dave Miller appeared before the Commission today and signified his willingness to referee whenever called upon.

### McGraw Can Hit Despite 55 Years

Augusta, Ga.—(AP)—John J. McGraw, 55 years of age and more than 20 years retired from active play, can still hit a baseball in any direction he chooses.

At a drill of New York Giant pitchers the manager did the batting as a string of pitchers took a turn on the mound. Veteran stars, medium and young fellows just trying to get along went out to pitch. McGraw slapped hits to right, to center and to left, and he bunted to third and first.

The workout was to teach the pitchers how to field bunts and what to do on plays arising with runners on the base.

It was the reverse of batting practice where a score of players bat with a few pitchers throwing the ball up. McGraw did all the batting and every pitcher within sound of the manager's strong voice got a chance to do some pitching.

Watching the white haired player of 25 years ago slam his short, sharp hits "in the groove" between the bases and fields, causes one to wonder if he could not play a few games now and then. He would certainly hit the ball and he moves around the field as if his legs would respond to any reasonable request made of them.

There is a rumor that his legs are bad, so he probably will not enter the regular lineup.

### Wife of Wealthy Man Owns Racer

Chicago.—(AP)—As a child, Mrs. John Hertz hoped to own one day a string of winning race horses. Seven years ago her husband, who once drove a taxicab but now is a millionaire, told her she had better begin to satisfy her ambition.

Horses began to fill the stables on the 725-acre Hertz estate near Cary, Ill. There are more than 50 now and they include Reigh Count, short odds favorite to win the Kentucky Derby, and Anita Peabody, foaled on the farm, last year's ranking two-year old, whose fleet legs won \$114,000 for her owner.

Mrs. Hertz gets a thrill out of her horses, but she says she gets a greater thrill out of watching the career of her husband, who founded the Yellow Cab Co. and is its president.

She calls herself the "caboose" of the family. "I'm always traveling around after my husband on his many journeys or after my children who drag me into their many interests," she said.

The Hertz estate is a paradise of rippling brooks and miniature lakes, where rainbow trout splash in free-

dom. The barns are steam-heated, electric lighted and neatly tan-barked.

All the Hertz love horses. All ride and are enthusiastic over the breeding of thoroughbreds. Mrs. Hertz early learned the art of riding well and today is an ardent polo player. Three or four polo grounds and many miles of picturesque bridle paths have been laid out on the estate. Anita Peabody and Reigh Count, with several stable mates, are in Louisville now, training for the Derby.

### Berlenbach Divorced

Mexico City, March 29.—(AP)—El Universal today said that Paul Berlenbach, former light heavyweight boxing champion, had obtained a divorce through the courts at Cuernavaca, state of Morelos.

The divorce suit was filed there sometime ago by an American named H. E. Grace, a Mexico City resident, who has assisted in obtaining divorces for many foreigners. The fighter's signature was required for the final petition. Berlenbach came here Tuesday night and left Wednesday after signing the papers and the divorce was granted.

Berlenbach refused to make a statement when he left his hotel for the railway station apparently in high spirits.

### Kentuckians Plan Memorials to Racers

Lexington, Ky.—(AP)—A bronze memorial to Ten Broeck and Longfellow, two immortals of the turf, is planned by Lexington thoroughbred owners and breeders.

Mrs. James W. Crutcher, horsewoman, has suggested Old Chesapeake, made famous in the books of James Lane Allen, as the site for the memorial, which will be the work of Miss Katherine Wheeler. Miss Wheeler has modeled Man o' War, Epitaph and Bubbling Over.

More than a dozen speed boats, belonging to wealthy persons and stored for the winter in the Purdy boat house, also were destroyed. The total loss was estimated at \$200,000.

### FIGHTS LAST NIGHT

(BY THE ASSOCIATED PRESS)  
Cincinnati—Harry McCarthy, Cincinnati, won over Jimmy Sayers, Port Wayne (10). Jimmy Harris, Cincinnati, defeated Larry Pruitt, Indianapolis (6). Windy Meyers, Cincinnati and Red Rodman, Port Wayne, drew (6). Buddy Lee, Nashville, technically knocked out Bobby Bridges, Indianapolis (1).

Akron, O.—K. O. Christner, Akron, knocked out Sergeant Jack Adams, St. Louis (1). Charley Brock, Philadelphia, defeated Jim Sigman, Spartanburg, S. C. (8).

Detroit—Forrest Hawke, Detroit, defeated Tom Sayers, Detroit (10). Bradford, Pa.—George Menahan, Buffalo, N. Y., won over Tony Russo, Toledo (6).

### Bowlers' Tourney at K. C. is Tight

Kansas City, March 29.—(AP)—Tightening of the race among the leaders in the singles and all-events at the American Bowling Congress tournament here has left entries in the six remaining days of competition facing difficult prospects in all classes.

George Peplinski of Erie, Pa., rolled 699 yesterday to move into third in the singles, only six pins under Henry Schmidt of Chicago, who took the

lead in this event several days ago. Walter Smith of Minneapolis shot 691 for fifth and Lawrence Winkling of Quincy, Ill., made 690 for sixth.

Frank Snyder of Erie, gathered 1,916 pins to place fourth in the all-event. This left a spread of only 21 pins in the first four places. Phil Wolf of Chicago, retained first with 1,937.

There were no changes in the doubles and five-men events. The Ziegler Chocolates of Milwaukee rolled 2,851 to lead a slow five-man program last night.

Entry of Jimmy Smith of Cleveland recognized as the allround champion, has created unusual interest in today's session.

### Just Half a Dozen Spit Ballers Left

New York, March 29.—(AP)—Another famous tribe—the spit ball pitchers of baseball—is rapidly becoming extinct.

Now that Urban Shocker has left the game, the ranks of this once great galaxy hurlers has dwindled to a mere half dozen.

Only eight years ago the major leagues decided by concurrent action to ban freak deliveries and agreed that seventeen bona fide spitball pitchers then performing in the big circuits would be the only ones exempt.

Of that number the National had eight, namely: Bill Doak, "Shuffling Phil" Douglas, Dana Fillingim, Ray Fisher, Marvin Goodwin, Burleigh Grimes, Clarence Mitchell and Dick Rudolph. Today, only Doak of the Robins, Mitchell of the Phillies and Grimes of the Pirates, survive.

With the passing of Shocker of the

Yankees, three of the moist ball fingers are left in the American League. When the rule was passed in 1920, there were A. W. Ayers, Ray Caldwell, Stanley Coveleskie, Urban Faber, H. D. Leonard, Jack Quinn, Allan Russell, Shocker and Allan Sothoron.

Coveleskie, now battling for a regular berth with the Yankees; Faber of the White Sox and Quinn of the Athletics remain on the American League active list.

### Novice Gets Chance

New York, March 29.—(AP)—Joe Sekyra, blonde Bohemian from Dayton, O., will make his bid for light heavy-weight recognition against Leo Lomski, of Aberdeen, Wash., in Madison Square Garden tomorrow night after only a year of fighting. That handicap alone has forced the betting odds to 8 to 5 against his chances of beating the tough veteran who twice floored Tommy Loughran.

Sekyra, 21 years old, has lost but one fight in his year of campaigning. Johnny Risko took his measure, but Sekyra gained a draw in a return engagement. He has fought 43 times, including many amateur battles.

Loughran has agreed to meet the winner of tomorrow's fight.

### Callahan is Winner

Los Angeles, Mar. 28.—(AP)—Mushy Callahan, junior welterweight champion, proved himself the master of veteran Dick Hoppe of Glendale, here last night winning, in the opinion of ringsiders, seven of the ten rounds.

The fight was termed by Callahan as the first of a "comeback" campaign. He was knocked out several months ago by Sammy Baker of New York and lost a decision to Hoppe in their last meeting. Callahan's title was not at stake in either of those bouts.

### Prince of Wales is Winner After Fall

Freshman, Surrey, Eng., March 29.—(AP)—Despite being thrown by a favorite hunter, Miss Meffett II, during the Highland Brigade steeplechase meeting at Stockington today, the Prince of Wales remounted and won the race.

### Golfers in South

Pinehurst, N. C., March 29.—(AP)—Bobby Cruickshank, Bill Mehlhorn, Tommy Armour, Johnny Farrell, and a host of other golfers of the same

tested mettle today began the 28th annual North and South Open golf tournament.

Shooting 36 holes today and a like number tomorrow, a field of some sixty golfers is competing.

### SHORT TALKS BY THOUGHTFUL MOTHERS.

A Wisconsin Mother says: "I find mothers very well informed on the subject of 'dope' in medicines. Few mothers modern-a-days would buy a preparation that contained opiates or chloroform. A glance at the package before buying tells her this. With Foley's Honey and Tar Compound, the name tells a true story. It is quickly effective for coughs, colds, croup and throat irritations. ## HOW TO FIGHT EXCESS FAT

There are hard ways, like starvation, but fewer and fewer employ them. There is a pleasant way, modern and scientific, which combats the cause. A vast number of people now use it. And the slender figures now seen everywhere are largely due to that.

That method is embodied in Marmola prescription tablets. People have used them for 20 years—millions of boxes of them. And everybody, in almost every class, sees the change. New beauty, new health, new vitality.

Each box of Marmola contains the formula, also the scientific reasons for results. So users have no fear of harm. Learn the facts about Marmola, because of the good it has done. Ask your druggist—now—for a \$1 box with the book. Then decide.

a change for the worse early Monday morning and passed away very peacefully at the ripe old age of 93 years. She had the misfortune to fall some few weeks ago and injured her hip to such an extent that she was confined to her bed. The shock of the fall and the attendant pain was more than she could withstand.

The deceased was the eldest resident in this community and had come to this country early in life from France, and, overcoming all obstacles at last reached the ladder of success.

Funeral services were held from St. Mary's church here on Wednesday and the church was filled to capacity with sympathetic friends who came from many distant points in order to pay their last respects to the deceased. A complete obituary will be published next week.

Mr. and Mrs. F. Meyer and Miss Thais were in Ottawa Sunday where they visited at the home of Mr. and Mrs. Edward Hurley.

Mr. and Mrs. Adolph Barlow were here from Amboy Monday and called upon friends and relatives.

Mrs. George Thier returned to her home on Tuesday from the local hospital after undergoing an operation. Mr. and Mrs. Walter Delhotel were in Mendota on Saturday calling on friends.

Vincent Arnould was down from Dixon, Wednesday attending the funeral.

Mr. and Mrs. Rudolph Heidenand and Mr. and Mrs. Glen Schultheis drove to Dundee on Sunday where they visited with friends and former neighbors.

Francis Bauer was born in Boudcourt, Canton de Berne, Switzerland, on September 9, 1849, spending his youth in the mountains where he lived the life of a highlander, caring for herds of goats and cutting timber. In October 1884 he was married to Sarah Montavon Bauer, being the widow of his deceased elder brother, Joseph. They continued to make their home in their native country for two years, but when Mr. Bauer saw that there was nothing in the future for him, working at eighteen cents a day, he persuaded his family to come to this country. This was in 1886 and the trip across consumed several weeks of hard sailing.

But the hardships did not end with their arrival here. They took up residence upon several of the various swamp farms in Viola township. This country was then undrained and crops were a matter of the season or good fortune in evading prairie fires. However by hard work and diligent saving they managed to amass a small fortune with which to tide them over old age. So in the spring of 1901, they left the farm and purchased a home in West Brooklyn and have resided there ever since. They made fast friends with everyone and lived contentedly in their own simple way.

Some few weeks ago the fond husband was seized with a severe attack of the grippe which later developed into pneumonia. Everything possible was done to restore him to health, but because of his advanced age, the battle proved a losing fight, and he passed away about 6:30 on the morning of March 21, 1928 at the age of 78 years.

Funeral services were held from St. Mary's church the following Friday morning and interment was made in the Catholic cemetery. The pall bearers were chosen from lifelong friends and neighbors and were as follows: Frank Hahmmer, Andrew Hubbsch, Prosper Gander, George Meister, A. F. Jeanguenat and John Dinges.

Besides the bereaved widow, he leaves to mourn him, four step children; Mary Cardot, of Paw Paw, Joseph Bauer of Viola, Frank Bauer, Jr. of Montana and Julius of Marseilles and five children: Louis F. of Viola, Elizabeth O'Hare of Rochelle, Edward C. of Scarborough and Amel of Rochelle. We wish to express our sincere thanks to those who so kindly assisted us during the illness and death of our beloved husband and father, Francis Bauer.

Mrs. Sarah Bauer and Children.

## Guard Against "Flu" With Musterole

Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches rub on good old Musterole.

Musterole relieves the congestion and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister.

First you feel a warm tingle as the healing ointment penetrates the pores, then a soothing cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Battle Starts Next  
Tuesday in Chi.

Chicago, March 29—(AP)—Forty of the country's best basketball teams survivors of some 20,000 that started the season, will be in the tenth annual University of Chicago National Inter-scholastic basketball tournament starting next Tuesday and continuing until Saturday night. Morton high school of Cicero, Ill., won the title last year. Thirty-five teams, representing thirty-one states, are already entered. Thirty are state champions, three are runners up, and two hold local titles.

Among the quintets with unusually fine records is Austin, Texas, state titleholders, which won the championship from a field of 800 schools.

Vienna, Georgia, state champions and winner of the Cotton States tournament for the second successive year, is another strong team. The Georgians were in the Chicago tournament last year, being beaten by Morton in a wild game, 27 to 26.

Naugatuck, Conn., winner of the University of Pennsylvania's Atlantic Seaboard championship, in which 52 teams played, is one of the strongest of the eastern teams.

## Two Interesting Teams

Two of the most interesting teams are the United States Indian School of Albuquerque, winners of the New Mexico tournament, and Carr Creek, Ky. Four Indian tribes are represented on the Albuquerque quintet. Carr Creek lost the Kentucky Championship to Ashland, also in the tournament, in a game that went four overtime periods. The team is composed of typical mountaineers, who came to the state meet at Lexington unknown, and so won the people of that city that Lexington is paying their expenses. Without a gymnasium, the Carr Creek boys practice out of loors, wearing overalls for gym suits.

The east is exceptionally well represented this year by Naugatuck, Conn.; Berlin, New Hampshire; Rutland, Vermont, and Bristol, Conn.; and there is prospect of several more teams entering.

The National Association of Basketball Coaches, composed of 400 college basketball coaches, will meet in Chicago at the time of the tournament, and most of the members will

Training Camp  
News Reported  
by A. P. Writers

(BY THE ASSOCIATED PRESS)

Los Angeles—Manager Joe McCarthy of the Chicago Cubs is determined to plug the infield hole which was blamed for allowing the National League pennant to flap away last season.

With a coterie of the most brilliant minor league infielders in years already on his roster, he yesterday traded Pitcher Bob Osborn for Ray Jacobs, Los Angeles, infielder.

The Cubs gathered 17 hits to beat Hollywood, 10 to 0, yesterday. Johnny Welch, the young right hander, held the Hollywood nine to three scattered hits in nine innings.

Shreveport—Red Faber, veteran member of the Chicago White Sox pitching staff, seems ready for another good season in the majors.

In his initial appearance of the season yesterday, Faber's spit ball and curves broke as they did in the heyday of his career, and outside of a wabbling beginning, he mastered the Shreveport batsmen.

San Antonio—The science of bunting, which slumped with the advent of the lively baseball is on the road to revival in the Detroit Tiger's camp here.

Manager Moriarty has ordered his crew of sluggers to bat in at least one hour batting practice each day.

Oakland—Donie Bush smiled today, for his Pittsburgh Pirates, view-

ing the sunshine for the first time in a week, hit everything served to them yesterday, totalling 17 safeties.

Tampa—With two infield positions still in doubt, the Washington Senators were on their way north today to play ten exhibition games before opening the regular season in Washington against Boston.

Memphis—Ernie Nevers, St. Louis Browns pitcher, was called upon to start the second and last game of the Browns with the Memphis club of the Southern Association today.

In the Browns' 5 to 2 victory yesterday catcher Clyde Manion of the St. Louis team went to the hospital when a foul ball split his right hand.

Plant City, Fla.—The St. Louis Cardinals are far from satisfied with their recent training season showing. The period of experimentation with playing materials is being continued in the hope that it may develop the proper lineup for meeting the stiff opposition the Cardinals know they must face when the league season opens.

TWO AMERICAN  
HORSES ENTER  
STEEPLECHASEGruelling Race in England Will Draw  
Great Crowds

Liverpool, Eng., March 29—(AP)—Hope spelled with capitals might be the middle name of several hundred Americans who came 3000 miles to see the crack Yankee steeple chaser, Billy Barton, perform tomorrow in what is unquestionably the world's biggest gamble in racing—the Grand National Steeplechase.

Billy Barton, owned by Howard Bruce of Baltimore, and Burgoright, owned by Benjamin L. Blair of Chicago, are the American-bred horses entered in the most gruelling contest for horse flesh ever conceived by man.

More than 300 reserved seats have been added to the Aintree grand stand on account of the rush from the United States sportsmen who began clamoring for seats weeks ago. Most of these reservations were made by cable and some by trans-Atlantic telephone.

## Novel Beginning

The race, which this year is attracting large crowds, had a novel beginning. It was conceived by a racing enthusiast and publican, Jack Lynn, 91 years ago. He hit upon the idea of a long distance struggle with the view of attracting crowds to his bar in the Waterloo Hotel at Aintree which had been in the doldrum for years. The scheme worked, the race being a crowd winner from the beginning. Lynn died a very rich man because of this.

Twice in the last five years the Grand National has been won by an American-owned horse, but never has it been won by a horse bred and owned in America.

Neither Billy Barton or Burgoright

is a favorite in the betting, and the trainer of the Baltimore entry said rather pessimistically that the horse was not acclimatized. Every horse in the Grand National, however, has a chance.

The best horse does not always win.

There are thirty obstacles in the four and a half mile course and in the first mile alone in the scurry and scramble of getting a good start each horse is in imminent danger of being toppled over by the herd of indifferent jumpers whose jockeys are riding

with all their might and main and with a single aim.

Illinois Farmers to Plant More Corn

Springfield, Ill., March 23.—(AP)—Farmers of the state plan to increase their acreage in corn about 5 per cent over last season, if spring planting conditions enable them to carry out their expressed intentions as of

March 1, according to a survey announced today by the state and federal departments of agriculture.

Present indications point to an increase of 2 per cent in oats, 10 per cent in spring wheat and 20 per cent in barley over the acreages of last season.

The increased acreages will be practically off-set by a marked reduction of 7 per cent in the prospective acreage of tame hay. Reports quite generally point to a moderately larger total acreage in crops than in 1927. In many counties the 1927 acreage in crops was below average due to the adverse season.

In the Corn Belt states reports indicate a 2 per cent increase in corn acreage, little change in oats, a small decrease in spring wheat and hay, and a substantial increase in the barley and potato acreages.

For the United States farmers were planning to decrease the acreage of spring wheat 1.5 per cent. Increases are intended for corn of 2.8 per cent; barley, 23.9 per cent; potatoes, 11.9 per cent and sweet potatoes, 5.5 per cent. Tame hay will be decreased 14 per cent if present plans are carried out.

Farmers' planting intentions on March 1 in the East Central Corn Belt States were less settled than in ordinary years because of the uncertainty as to the survival of the winter wheat crop in these states. Farmers, particularly in Ohio, Indiana, Illinois, Kentucky and Tennessee, reported that much wheat is apparently dead and much badly damaged by winter freezes, and that plantings of spring wheat, barley, oats and corn, which would mainly replace abandoned wheat, are partly contingent upon later developments in the condition of winter wheat.

to Elkhart, Ind., where they were the guests of the bride's aunt, Mrs. W. G. Lawrence for several days, returning here Sunday night. The bride is the older daughter of Mr. and Mrs. A. L. Willis, a graduate of the high school here and of Brown's Business College at Sterling. She has recently held a responsible position in a dentist's office in Oak Park. She possesses a charming personality and is a great favorite in social circles. The groom is the older son of Mr. and Mrs. Nels Mortenson and is noted for his industry and commendable traits of character. He has been employed by an Oak Park taxicab company but will now assist his father with farm work. They will be at home to their many friends at the Mrs. M. G. Briggs residence after April 1. Congratulations and best wishes.

Safe Surgery

By SAMUEL D. SHULL, M. D.  
Chambersburg, Pa.

(The following is one of a series of articles prepared under the direction of the Gorgas Memorial as part of its Better Health and Longer Life program. President Coolidge is the honorary president of the Memorial, which has been organized and endowed by prominent doctor-scientists laymen throughout the country to perpetuate the work of the late Major General Gorgas in preventing unnecessary illness. Headquarters of the Gorgas Memorial are at 400 No. Michigan Avenue, Chicago.)

These are the days of specialization in medicine, so different from days gone by; when the family doctor was called he made the diagnosis and

treated the ailment according to his own methods.

Now, when one is ill, the specialist is often called in consultation whether it be a medical or surgical disease. I believe this is the proper procedure. The surgical specialists of today have brought surgery to a place of safety. With all the laboratory tests and modern means of aiding in diagnosis the patient, when taken to the hospital for operation, is confident of being helped. He wants an X-ray of his gall bladder or kidney to determine whether stones may or may not be seen. He may suggest a blood count to learn whether his blood has enough red cells or white cells or perhaps too many cells. He knows that, to tolerate the operation he is anticipating, his blood must be in good condition.

The people of today know that all these tests and means of diagnosis and cure are in the hands of the surgeon and they want them. They go to the hospital now with much less persuasion than they did a few years ago, because the modern hospital has attained a high standard in

QUIX Ends CORNS

Quix works four ways: (1) Stops pain instantly; (2) Removes corns quickly and painlessly; (3) Prevents new corns from forming; (4) Prevents corns, once removed, from returning. Only corn remedy that combines these four-in-one features. Quix acts like magic. Absolutely new and different. Nothing like it. Patent applied for. Satisfaction guaranteed.

almost all communities and each year this standard rises higher and higher. The staff members want to give the best service, and to do this they must apply all the means of safety.

Those afflicted with surgical diseases should not hesitate to inform their physician early. If a rupture is taken in time we would have no strangulated hernia. It can be permanently cured by operation. If a small lump in the breast is reported to the physician early, we would not have women dying of cancer of the breast; not only a lump in the breast

but a lump that seems to get larger and at times sore in other parts of the body should be reported at once. A pain in the abdomen often thought to be colic may be a beginning appendicitis. If all the cases of appendicitis were operated upon the first or second day, our casualty list following operations for appendicitis would be almost nil.

Thus the safeties of surgery, after considering all that science has given us so far in aiding diagnosis and helping to bring about relief and cure, in a great measure rest with the individuals themselves.

Have your doctor give you a thorough examination occasionally. The much talked of periodic health examination these days is one way of checking up on your health. You will feel better for having done it.
